It pays to trade at

THE PEOPLE'S STORE

LINEN WEEK AT

THE BOSTON STORE,

Our new linens are here, and SATURDAY MORNING, AUG. 10, we will offer some great values in this department. Among the many good things will be found two extraordinary bargains in Damask. The first of these will cost you

29 CENTS A YARD,

And is an unbleached Damask, 54 inches wide, and worth 40c a yard. The second extraordinary bargain will cost you

59 CENTS A YARD.

This is a fine imported bleached Damask, not 50 nor 60, but 66 INCHES WIDE, that would be a bargain at 75c a yard. Now we simply mention these two drives as a fair sample of many other equally as good bargains in

TABLE LINENS, TOWELS AND CRASHES,

Which will be offered for one week only, beginning Saturday morning, August 10.

THE BOSTON STORE,

(A. S. YOUNG.)

138 and 140 Fifth Street, East Liverpool, Ohio.

UNCLESAM'S SNAGBOAT

A Peep Into the Mysteries of the Woodruff.

CAPTAIN CHRISTIAN'S CRAFT

Machinery Does the Work Wherever Possible—He is Not Afraid of Accidents. Handsomely Appointed and Conveniently Arranged, It is One of the Best in the Service.

The government boat tied up at the foot of Market street is a beauty, and Captain Christian took pleasure in showing a reporter through the craft.

The E. A. Woodruff is a craft worth walking miles to see. It is built almost entirely of iron, and differs from the ordinary steamer in appearance by having a double bow, or what at first looks like two bows. They are connected, however, by an iron platform a short distance below the surface of the deck. Above this hangs a large hook at the end of a strong chain and its work is that of scouring the bed of the rivers in search of obstacles which makes navigation dangerous.

At the extreme front is an A frame, and it is most useful in removing sunken barges, the force exerted being far beyond human comprehension. The frame is operated by a rope passed around what the boatmen call an elliptical drum. It allows any desired length of cable without adding to the original, for as one end is wound the other unwinds.

Captain Christian, the whole-souled commander of the boat, met so many obstructions in the progress of his work that he conceived the idea and was about to put it into execution when he found that some other boatman had met with the same difficulties and conceived the same idea.

The main frames placed in front of the boat do the greater part of the dragging, and are controlled by a great chain made of 24 inch bar iron. The lifting force is 240 tons, and when at work they move with a deliberation but a certainty that always brings what is on the bottom of the river. The boat itself is a model of safety and convenience. Down in the hull are 26 water tight compartments and a hole knocked in any one will not cause the boat to sink for the others will float it as easily as if no hole was there.

This arrangement has been found decidedly useful on more than one occasion, as the boat has seen some rough service. With that care of everything always found on the property of our Uncle Samuel, the boat shines like a new dollar, and there is not a spot of dirt to mar its beauty. An example of this is seen in a great rack which stands where it can be readily reached. It is filled with bright and shining tools, the implements used every day when the men are at work. Some of them bear the marks of rough usage only so far as scars on the wooden handles are concerned, for the metal is as pretty as the day it came from the factory.

Captain Christian remarked to the reporter as he gazed in wonder at the splendid array: "The greater part of our visitors think those tools are for show, but they would change their mind at once if they saw the boys use them."

It is part, and a great part too, of the discipline of the boat to keep those tools in the best possible order, and it is a duty never neglected. All the metal work is in the same condition. Where the iron is painted it is always neat and clean, and the brass and nickel appointments are as bright as the day they were first placed in position. The steering gear is the most improved pattern, and is operated by an hydraulic pump of great power. It materially lessens the danger of accident and gives the pilot time to occasionally wipe the perspiration from his fevered brow. An auxiliary boiler is another important part of the equipment. It is a great economizer of fuel, and shows that the government saves in this respect at least all that can be saved. It is used for working the machinery when the craft is tied up as at present, for the use of the big boilers with so little to do would be an extravagance which even Uncle Sam could not endure.

The interior of a section devoted to industry is a busy workshop, carpenters, blacksmiths, machinists and plumbers finding many tasks to occupy their attention. They are busy all the time, and work with a cheerfulness which cannot be mistaken. A heavy drilling machine and a large lathe occupy prominent positions and are frequently used. Almost every piece of machinery is operated by steam, and the latest inventions are seen everywhere. Captain Christian never fears a break, because he knows his men are competent,

if it became necessary, not only to make repairs, but to build a new boat. It is a serious break that compels them to stop at all, so complete is the system. And the inner man is not forgotten. A large refrigerator is built as a part of the boat for the purpose of keeping the reserve provisions on the lower deck, and just above it is a vegetable room, smaller in size, but equally as frigid in temperature. The dining room is commodious, allowing ample room, for every man. Above the table is a system of fans, and the annoying house fly is unknown. A suite of rooms, splendidly furnished, is always kept for Colonel

Stickney, the army officer in charge of the river, but he seldom uses them, as his work keeps him close in Cincinnati. The captain has three rooms conveniently arranged and plentifully provided with comforts. The reception room is a beauty, but when winter comes he transforms it into an office, where arrangements are made for the coming year. The boat throughout is provided with bath rooms, and comforts for the 40 men who make up its crew, and is as pleasant a home as could well be found.

Captain Christian and his officers are gentlemanly and pleasant, treating visitors with an easy grace which cannot but appear in every action. They will remain here until a sufficient stage of water allows them to move out, and are making many friends by their manly actions. Will H. Surles is entertaining them almost every day and they thoroughly enjoy it.

Improving the River.

Good Plans for the Future Well Under Way.

The Cincinnati Times-Star has this interesting information for river towns:

"The joint committee of the chamber of commerce and freight bureau on Ohio river improvement met in the freight bureau room Tuesday morning. Paris C. Brown was made chairman and Colonel E. P. Wilson secretary. The purpose of the meeting was to arrange for a river improvement convention, to be held in this city, to be composed of delegates from the cities and towns in Pennsylvania, West Virginia, Ohio, Kentucky, Indiana and Illinois, that are interested in the navigation of the Ohio, and, of course, its improvement."

"It was decided to name Tuesday, October 8, as the date for the convention, and Secretary Wilson was instructed to issue invitations to the various chambers of commerce and boards of trade or other associations whose members are interested. Senators and representatives in the various states will also be invited to attend. Secretary Wilson was also instructed to prepare statistics of Ohio river tonnage, as compared with the tonnage of the Mississippi, Missouri, Red and other rivers, to show the importance and necessity of the improvement of the Ohio."

"Secretary Wilson showed a map, which had been prepared by the late United States engineer, Colonel Merrill, showing the proportionate tonnage by red lines, and the committee was astonished (with the exception of river men present) upon realizing through this object lesson that the tonnage of the Ohio river exceeded that of the Missouri, and even of the father of waters, the old Mississippi, itself. This map will be reduced and used upon the invitations and literature which will be sent out. The meeting adjourned subject to the call of the chair."

HOME FROM THE MOUNTAINS.

The West Virginia Party Arrived at Midnight.

The camping party who have been enjoying the mountains of West Virginia and fishing in the waters of the Potomac arrived home at midnight. They caught 205 fish and ate them, and slaughtered so many squirrels that the count was lost a few days after they pitched their tents. Not one accident happened to take away any part of the pleasure, and some of them lay claim to being the most peaceful people on earth. West Virginia wept when they left, but dried its tears and smiled again as they promised to come back next year.

A DEPOSITION.

Foyser's Condition is Critical, So He Was Sworn Today.

Such was William Foyser's condition today that his deposition was taken for use by the state, and will in all probability be used in the hearing tonight.

The exact time has not been set for the hearing but it is expected that it will take place this evening. Foyser will probably set up a plea of self defense.

WE GET A GOOD THING

The Building and Loan Men Will Come.

THREE CANDIDATES CONSIDERED

But the Other Two Could Not Win. Columbus Was After the Honor, but J. J. Purinton Landed the Plum—The Importance of the Gathering.

J. J. Purinton is home from the convention of building and loan men at Springfield with a glad smile on his handsome face, for he knows way down in his heart that he landed the plum and East Liverpool gets the meeting next year.

The convention was called at Springfield in the massive city hall, and when the roll was called 85 delegates were there to answer present.

When the vote was taken for the next place of meeting a number of delegates were absent, many of them being favorable to Liverpool, and Mr. Purinton quaked for a little while. But like the careful man of politics that he is he had looked over the ground thoroughly, and knew he would win, although it would be a close call. The vote showed Columbus 21, Norwalk 6, and Liverpool 23, which sent the convention here. It will be held the second week in August next year, and complete preparations should be made to give the delegates a pleasant visit, compelling them to acknowledge Liverpool as the greatest city of its class in Ohio.

Much other business was transacted by the convention, among the most important being the selection of H. F. Cellarius, Rufus Jones and R. W. Patterson, of Dayton, E. R. Hyatt, Toledo; L. M. Studevant, Sidney; A. H. Noah, Akron; C. H. Gallup, Newark; Fred Bader, Cincinnati, and J. J. Purinton as a committee to look after the funds to be collected for the erection of a memorial to Judge Winters, of Dayton, the best friend the building and loan associations of Ohio ever knew.

The importance of the building and loan business of the state cannot be overestimated. The report for last year shows that they had in their keeping \$86,047,104.11, an increase of more than eight per cent over the business of the preceding year. The authorized capital stock is over \$757,000,000, and dividends last year amounted to over \$5,000,000, the whole expense of investing and managing this vast amount of money being but little in excess of one per cent. The disbursements for the year were \$62,142,603 78, and there is a general air of prosperity about them which shows careful business management. At one time Governor McKinley was a building and loan secretary at Canton, and who knows but what that is a clear path to the presidency. East Liverpool should not allow itself to be beaten by other cities in its entertainment of these enterprising men.

LITTLE SUCCESS

Being Met by the Men Searching For Lenz's Remains.

A dispatch from Washington says: "The state department has been informed by Minister Terrill in Turkey that he has for three months been urging an investigation into the death of Frank Lenz. Mr. Terrill says that in order to comply with the request of Mr. Sachtleben, sent to investigate the case, that he be given authority to search the residences of the Kurds for relics of the bicyclist and proofs of his death, an army would be necessary. These Kurds live in the hills and mountains, and would not permit a stranger and a foreigner to enter their houses, even though armed with the authority of the Turkish government. Mr. Terrill says that he expects to secure a guard of Turkish troops, who will accompany Sachtleben into the country of the Kurds for the purpose of recovering the remains of Lenz."

COMPANY E ALL RIGHT.

A Full Turnout at Company Drill Last Night.

Company E met last night at the rink for regular drill, and for two hours the boys did earnest work and made rapid improvement in the manual of arms and in stacking of arms with the swivel. The instructor expressed himself as highly pleased with the attention paid by the members, and their evident desire to do good work. Captain Walter Supplee states that he has all the members he desires, and that the organization will go into camp at Newark on Aug. 31, fully equipped and in good condition. He will take with him 32 privates and corporals, five sergeants and two commissioned officers, and possibly a third commissioned officer,

in case the latter, lately elected, passes his examination successfully. The men will be required to have their equipments put in first-class shape, belts neatly blackened, brasses shining and everything in apple pie order.

The company voted to purchase campaign hats, a kind that is much lighter than the fatigue cap. Captain Supplee has also placed an order for china canteens for the entire company, and they will be about the handiest thing in camp, as well as a novelty and a good advertisement for the city.

W. J. Terrence is now first sergeant, Frank Hanley second sergeant, William Moore third sergeant, and F. Leslie Trump fourth sergeant. The place of fifth sergeant is yet vacant, and will be filled some time in the future, by one most competent and worthy.

PATRICK M'CUNE DEAD.

He Was Only Ill a Few Hours and Passed Away Last Night.

Patrick M'Cune, a well known resident of Lincoln avenue, was seemingly as well as ever early yesterday evening, but in a few hours he was dead, having been seized an old complaint.

He was at work on Saturday, and since then has not been complaining a great deal, but when he was seized last night the attending physician knew he could not recover. He was 55 years of age and a widower his wife having died several years ago. He leaves a large family some of the children being grown to manhood. Deceased was employed at the Brunt pottery as dipper, and had a large circle of friends. The funeral will take place from the Catholic church tomorrow morning.

IT IS COMING.

A Good Fall Trade in Pottery is Promised.

The New York correspondent of a trade paper says:

"I have yet to hear among the New York crockery and glass men one serious doubt expressed as to the favorable prospects for the fall trade. There seems, however, to be some division of opinion as to the exact time matters may be expected to take. Some contend that the many buyers whose stocks have been allowed to run low during the past two years, will be forced to buy early and will place larger orders than for some years past. Others believe that the orders will come in slowly at first and will call for small amounts, but that the season will be a long and withal a profitable one."

SENATOR WOOD BURIED.

The Funeral Took Place Yesterday Afternoon.

The remains of the late Hon. J. A. B. Wood were interred in the little cemetery at Smithfield yesterday afternoon, a large concourse of friends and relatives being present. The committee from the senate was composed of Senator McConica, of Findlay, Senator Hogg, of Cadiz, Senator Ohl, of Youngstown, Senator Whittelsey, of Atwater, Senator Eekely, of Carrollton, Senator Stillwell, of Millersburg, and Clerk Caine.

The latest aspirant for the place is Hon. S. B. Taylor, of Toronto. His friends are pushing him with the claim that he is the only man in the district for the place.

A SUSPICIOUS LOT.

They Frequently Loiter About West End Residences.

A suspicious-looking pair of strangers have been loitering about West End these past few days, and many believe they are looking for an easy house to enter. John Rapp found them in his back yard last night, and watched them closely, but they made no move, except to look the house over with as much care as though they intended to buy it. A few nights ago someone pried the fastening from his cellar door, but nothing was stolen. These parties have been seen examining chicken coops, and they are believed to be after what few fowls are left in that part of the city.

MR. CRAWFORD DEAD.

A Coincidence in Connection With His Unexpected Demise.

Mr. and Mrs. A. G. Minehart and family left today for Brownsville, Pa., called there by the death of Mrs. Minehart's father, Mr. Crawford. Deceased is also the father of O. C. Crawford, of the West End Presbyterian chapel. He was a prominent and respected resident of Brownsville. A peculiar coincidence in connection with his demise is that he died while Mr. Minehart was camping along the Potomac river, and Mr. Minehart's father died while his son was camping last year.

THEY WON THE TROPHY

Ceramic City Cycle Club Boys Were In It.

THE TEN MILE RACE IS THEIRS

It Was Hard Work, But They Carried Off the Honors—The First Time the Local Club Has Appeared in a Noted Contest.

Liverpool was largely in evidence at the bicycle races in Pittsburgh last night, and unless some unforeseen accident of which nothing is known here appears to mar the beauty of winning the prize the silver trophy, the best of the races, is in possession of the C. C. C. C.

The ten mile team race was interesting, four clubs competing. They were the Westmoreland Wheelmen, the Allegheny Cyclers, the Ellsworth team and the C. C. C. C. The Ohio boys won with 34 points. Westmoreland got 29, and Shadyside 10. Irons, Goble and Mazer were the only ones to go to a finish. In the sixth mile a bad smash occurred, in which four men were put out of the race. Walters wheel shot from under him while rounding the turn and he went down, Snell, Worthington and Wildanger piling on top of him. Walters was slightly hurt. Twelve men started, but they dropped out one by one, until only the three were left. It was a good race, the time being 28:07 1-5.

Trappe was paced in a quarter against time, but did not finish in anything like order. Hale got first in the mile open, doing some hard riding and good work to win out. All the boys were in good form and road their best. The team race was the event of the evening, and the manner in which they carried off the prizes won the plaudits of the multitude. They are expected home this evening.

THEY WERE MARRIED,

But Had a Hard Luck Time of It Last Night.

August S. Vetter and Miss Mary Blanche Calhoun, from Pennsylvania, were married by Reverend Rineartz this morning.

The young couple arrived on the midnight train, and could not arouse the porter at the hotel they visited so they went back to the station and sat on the steps until morning. Then they hid themselves to Squire Manley's, the telephone secured the license, and they were wed. The groom was so tired that he fell asleep in the depot before the noon train arrived. The bride is a pretty girl of perhaps 20 summers, and the groom an intelligent looking German.

CLOSED THE STORE

White E. R. Chamberlain Was Absent From the City.

Constable Lyon this morning closed E. K. Chamberlain's place of business on Sixth street on one execution of A. C. Ellis & Co., Pittsburgh, for \$184.40 and another for \$26.50 by Parcels & Jones, of Pittsburgh.

Mr. and Mrs. Chamberlain have been in Atlantic City, and Ira Chamberlain has had charge of the store. He states that Ellis' bill was not pushed through fear that it would not be paid, as Mr. Chamberlain paid two-thirds of the entire amount on Aug. 5. Mr. Chamberlain was telegraphed for and will be home today, and expects to settle the matter quickly.

JAMES HAD A JAG

And Was Jailed in a Jiffy When He Swore.

James Sharp was drunk last night, despite his solemn promise to Mayor Gilbert that he would never again look upon the liquid which produces jags.

He became very boisterous when Officer Earl called him to account and swore large and strong swear words. Therefore the officer escorted him to the city jail and he is still in jail today. His only possession was a pint of bad whisky that would kill an anarchist, and only a third of the stuff remained in the bottle.

A LOUD REPORT

And Then the Chap Dropped Into a Big Barrel.

Parties near the D. E. McNicol pottery last evening were startled by a loud report, and thinking something had exploded a crowd quickly gathered. They were speedily informed that a man had been sitting on the head of a cask of big size, when, without warning his body sank out of sight, his feet went heavenward, and the noise was heard. He was not hurt, but wore that wish-I-was-a-thousand-miles-away look as he climbed out of the broken cask.

A GLANCE at the dirty streets prompts the belief that the sweeper came none too soon.

BUSINESS is improving and trade is getting better because a Republican congress is here and a Republican president is in sight.

MR. WHATSHISNAME will be heard from on election day only in small quantities. Charley Gill will be the only visible candidate for sheriff.

GENERAL BUSHNELL has girded up his loins, and is ready for the fray because a Democrat can be found to stand against him. Such is the wisdom of the early convention.

THE ONLY GOOD MOVE.

They say that Mr. Cleveland has arranged with the syndicate to keep the gold reserve intact, and prevent its impoverishment by a steady and ruinous system of withdrawals. Some color is lent the assertion by the deposit of shining gold when the hundred million mark is close, and there seems one expressed fear that it will again go below the safety notch. It may, of course, be necessary to issue bonds, and the public debt will be increased in time of peace, but better that than a panicky feeling which upsets business, and drives the careful man into that conservative stinginess so ruinous to the general business of the nation. Cleveland deserves credit for his stand, but it is the most dangerous action as a Democratic politician that he could take. It shows that his system of tariff duties is all nonsense and will not do what he has so often bombastically claimed. It proves beyond a doubt that President Cleveland fears to depend upon the revenue from imports, and must seek some other source of income in order to keep Uncle Sam from bankruptcy. There is nothing worthy in the course, for it piles a burden of debt upon the people and makes the balance on the wrong side of the books. It shows the straits to which the country has been reduced by the present administration, and proves the incompetency of such men as our Professor Wilson, theoretical reformer and amateur statesman. This decision on the part of Cleveland to confess his wrong is undoubtedly the best thing he has done since he first entered the white house as chief executive, and made promises to the people which he has been unable to carry out.

Hundreds Blown Up.

TAMPA, Fla., Aug. 16.—Passengers on the steamer from Havana report a train of Spanish volunteers from Havana, on the way to the Santa Clara district, blown up by dynamite. Hundreds were killed.

Three Tramps Killed.

WILLIAMTIC, Conn., Aug. 16.—A westbound freight train broke in two a mile from Pomfret Station. The two sections came together after the break, wrecking 17 cars. Brakeman Benson was slightly injured and three tramps killed.

APPEAL TO THE PEOPLE.

The Democratic Silver Conference Issues an Address.

BIMETALLISM THE REAL ISSUE

Of the Democratic Party in the Past, and Should Be in the Future, Says the Address—Plan to Influence the National Convention.

WASHINGTON, Aug. 16.—The Democratic silver conference has adjourned after issuing an address to the people, which says that while the conference does not speak for the Democratic party at large, as representing 24 leading states, has decided to make a declaration concerning the monetary question. The address declares that the federal constitution names silver and gold together as the money metal of the United States; also that the first coinage law passed by congress under the constitution made the silver dollar the unit of value and admitted gold to free coinage at a ratio measured by the silver dollar unit. It also declares that the act of 1873 was passed surreptitiously and makes an elaborate argument against the gold standard, and says that the Democratic party is traditionally a friend and champion of bimetalism. The effort to make the party the champion of gold monometallism is to dishonor its record, promises and principles. The address then says: "Duty to the people requires that the party of the people continue the battle for bimetalism until its efforts are crowned with success; therefore, be it

"Resolved, That the Democratic party in national convention assembled should demand the free and unlimited coinage of silver and gold into primary or redemption money at the ratio of 16 to 1 without waiting for the action or approval of any other nation."

"Resolved, That it should declare its irrevocable opposition to the substitution for a metallic money of a paper currency, based on a single metal, the supply of which is so limited that it can be cornered at any time by a few banking institutions in Europe and America."

"Resolved, That it should declare its opposition to the policy and practice of surrendering to the holders of the obligations of the United States the opinion reserved by the government to redeem such obligations in either silver coin or gold coin."

"Resolved, That it should declare its opposition to the issuing of interest bearing bonds of the United States in time of peace, and especially to placing the treasury of the government under the control of any syndicate of bankers, and the issuance of bonds to be sold by them at an enormous profit for the purpose of supplying the federal treasury with gold to maintain the policy of gold monometallism."

"With a view to securing the adherence to, and re-adoption of the Democratic financial policy above set forth by the Democratic national convention to be assembled in 1896, and of the nomination of a candidate for the presidency well known to be in hearty sympathy therewith, we hereby pledge our mutual co-operation and urgently recommend to our Democratic brethren in all the states to at once begin and vigorously and systematically prosecute the work of a thorough organization. The following plan of organization has been adopted:

"First—There shall be a national committee of Democrats who are in favor of both silver and gold as the money of the constitution, which shall be composed of one Democrat from each state and territory and the District of Columbia, and the executive committee hereinafter provided for."

"Second—That until otherwise ordered by the national committee, Senators Isham G. Harris of Tennessee, James R. Jones of Arkansas and David Turpie, Indiana, and Hon. W. S. Jones of Missouri, W. H. Henrichsen of Illinois and Carsey Young of Tennessee, be, and they are hereby constituted the executive committee and shall have full power and authority, and it shall be their duty as early as a day as possible, to appoint the members of the national committee herein provided for and to fill vacancies in the same."

"Third—That said national committee shall have full control and direction of the patriotic effort of the bimetallic Democracy of the nation to secure, in the next national Democratic convention the maintenance of the time-honored principles and policies of the Democratic party, and when the national committee herein provided for is not in session, the executive committee shall have all the authority and discharge all the duties hereby conferred upon the national committee."

"Fourth—It shall be the duty of the member of the national committee from each state immediately after his appointment to take such steps as he may deem best to organize the bimetallic forces of his state, and it is earnestly recommended that in each county and election precinct of each state bimetallic Democratic clubs be organized, and for this purpose he may appoint such committees and sub-committees and canvassers as he may deem best."

"Fifth—That fully realizing the fact that this, nor any other plan of organization can be successful without the hearty co-operation of the voters themselves, we urge upon every voter in every state in the Union, who is in sympathy with their movement and who wishes to restore permanent prosperity to his home and country, to lend his aid and influence to perfecting this organization and that each of them shall enroll himself in some club."

To Keep Taylor Out of Prison.

PIERRE, S. D., Aug. 16.—The supreme court has granted a temporary writ of habeas corpus in the case of defaulting State Treasurer Taylor and it has been served on the sheriff. It is returnable in three days, when the question of legality of the five years' sentence will be argued.

Patchen Goes a Fast Mile.

MILWAUKEE, Aug. 16.—Joe Patchen has broken the record on the Wisconsin track by going a mile in 2:04. He failed to lower John R. Gentry's station record of 2:03.

A GUARD OF TURKISH TROOPS.

They Will Be Used to Guard for Lenz's Body and Effects.

WASHINGTON, Aug. 16.—The state department has received a dispatch from Minister Terrell, in Turkey, stating that for the past three months he has been urging the Turkish authorities to permit an investigation of the circumstances of the death of Lenz, the bicyclist killed by the Kurds. Mr. Terrell says that in order to comply with the request of Mr. Sachtleben, sent by Outing to investigate the case, that he be given authority to search the residences of the Kurds for relics of the bicyclist and proofs of his death, an army would be necessary.

These Kurds live in the hills and mountains and would not permit a stranger and a foreigner to enter their homes, even though armed with authority of the Turkish government. Mr. Terrell says that he expects to secure a guard of Turkish troops, who will accompany Sachtleben into the country of the Kurds for the purpose of recovering the remains of Lenz.

EXPLOSION AND FIRE.

The Plant of the Peerless Refinery Burned at Findlay—Loss, \$60,000.

TOLEDO, Aug. 16.—An explosion and resulting fire entirely consumed the plant of the Peerless refinery, Findlay, with \$60,000 loss, half insured. A benzene tank first exploded, cause unknown, and in an instant the building was wrapped in seething flames. Two still men, William Adams and William Benis, were probably fatally burned.

Ten oil stills caught next, and one after the other exploded, sending flaming oil over the surrounding buildings and ground. Next two tanks of crude, containing 12,000 gallons, caught fire, sending up red columns of flame 200 feet into the air. A mammoth tank of 30,000 barrels was fired into with a cannon, letting the oil run out, where it caught fire. The smoke obscured the heavens for miles.

Trying to Clear the Woman.

ST. LOUIS, Aug. 16.—It will be recalled that early in last May State Senator Peter Morrissey of this city was shot and killed in the house of Maud Lewis, said to be the senator's mistress, and that the Lewis woman was indicted for the murder. It now transpires that Maud Lewis has a husband named Albert Andrews and that he has made a confession to having killed Morrissey. He wants to be arrested and have Maud released, but the authorities have taken no action in the case yet.

Miners Out in West Virginia.

CHARLESTON, W. Va., Aug. 16.—All the miners of Loup creek, with the exception of those at Glen Jean, have struck. About 800 are out. Those employed at Glen Jean, about 200, refuse to quit, and almost an equal number at McDonald say they will go in again unless the Glen Jean men quit. New river operators have notified their men they must submit to a reduction from 40 cents to 30 cents for mining if the Loup creek strike is unsuccessful.

Killed by a Blow on the Head.

DETROIT, Aug. 16.—A post mortem examination has been held at Amherstburg on the body of Albert F. Walker, a race bookmaker, whose body had been found floating in the Detroit river. It leaves no doubt that Walker was killed by a blow on the head with a blunt instrument and the body then thrown into the water.

Carpenter Confirms the Report.

WASHINGTON, Aug. 16.—Acting Secretary McAdoe has received a cable from Admiral Carpenter at Chefoo confirming the cable of a few days ago that the outrage investigating commission had left Foo-Chow for Ku-Cheng, and that Lieutenant Evans of the navy was a member of the commission.

New Seminary to Be Opened.

ST. PAUL, Aug. 16.—The formal opening of the new Catholic seminary in this city, the gift to the church of J. J. Hill, will take place Wednesday, Sept. 4, and will be a notable event. Most notable of the visitors will be Mgr. Sartoli, who has already expressed his determination to be present.

Ransom Will Return to Mexico.

RALEIGH, Aug. 16.—Hon. Mat W. Ransom, United States minister to Mexico, says that he expects to be well enough to return to his post of duty in about two weeks. His appearance is in every way hearty, but in spite of this the minister is not unmindful of his late attack.

Four Men Injured.

SEYMOUR, Ind., Aug. 16.—Four men have been severely injured by being carried down with a falling scaffold on the Strauss block.

THE QUEEN'S SPEECH READ.

Dr. Tanner Causes a Sensation and is Suspended in the House of Commons.

LONDON, Aug. 16.—After the house of commons reassembled the members were summoned to the house of lords and the queen's speech was read by the lord chancellor, Baron Halsbury. The speech said that word had been received that the Chinese government is taking active measures to punish the murderers of English missionaries. The queen further said:

"My ambassador and the ambassadors of the emperor of Russia and the president of the French republic, acting together, have suggested to the government of the sultan reforms which in their opinion are necessary to prevent a recurrence of constant disorders. These proposals are now being considered by the sultan and I am anxiously awaiting his decision."

Timothy Harrington, in the course of some remarks in the house, declared that the Liberal party had fled from home rule, whereupon Dr. Charles K. D. Tanner shouted out, "A lie." He was suspended for a week.

WILL SPAR BEFORE DIAZ.

Pugs Will Try to Get Permission for the Big Fight in Mexico.

EL PASO, Tex., Aug. 16.—M. T. McLean, a prominent sporting man of Chicago, who came here a few days ago to see what arrangements could be made to have the Corbett-Fitzsimmons fight come off in Juarez, Mexico, in case it was stopped in Dallas, has received a telegram from Joe Hampson, the big railroad contractor of Mexico, stating that President Diaz would under no consideration allow the fight to take place on Mexican soil.

Billy Smith, a pugilist of this city, has been sent down to the City of Mexico to give a boxing contest with Jimmy Carroll before President Diaz's cabinet to show them that the sport is not brutal.

Holmes to Be Tried in Chicago.

PHILADELPHIA, Aug. 15.—It has been practically decided that H. H. Holmes, the alleged murderer of Minnie and Nannie Williams, B. F. Pitzeel and half dozen others will go to Chicago for trial for the murder of the Williams girls. This, it is said, was the outcome of a lengthy conference held in this city between A. W. Caps, of Ft. Worth, Tex., and District Attorney Graham. After the conference Lawyer Caps said that he had urged the district attorney to allow Holmes to go to Chicago and that Mr. Graham could hardly refuse to grant his request.

Won a Temporary Victory.

CHICAGO, Aug. 16.—Harlem track officials have won a temporary victory over the Civic Federation, and on an order from Judge Gibbons, the injunction restraining them from allowing gambling on the track has been set aside for the time. A full hearing of the case was set for Monday next, and at that time it is expected a decision will be rendered which will settle the controversy and incidentally the fate of the Harlem track, so far as continuous racing for the rest of the summer is concerned.

The French Statement False.

WASHINGTON, Aug. 16.—The semi-official statement made in France alleging that tuberculosis, anthrax and Texas fever is ravaging American cattle is characterized here as absurd. Secretary Morton said that the assertion was absolutely false, and that it was merely in line with other assertions made in behalf of the agrarian interests since the arbitrary action of the French government in barring American cattle from entry.

Last Payment for Twenty Years.

ARMOUR, S. D., Aug. 16.—At the Yankton Indian agency Agent Smith has distributed \$20 gold pieces struck off for the occasion as souvenirs of the signing of the treaty ceding the lands to the United States, which recently went into effect. About 450 Indians received the souvenirs. This is the last payment to be made this tribe for 20 years, when \$50,000 will be due them. They are now full fledged citizens.

Likely to Prevent a Bullfight.

DENVER, Aug. 16.—The Colorado Humane society through Secretary Thompson, has appealed to Governor McIntrye to issue a proclamation forbidding the proposed Mexican bullfight at Gillette, in the Cripple Creek district, Saturday, Sept. 24. It is believed the governor will exercise all the authority of his office even to the extent of calling out the troops, if need be, to prevent the exhibition.

A Brutal Negro Lynched.

ST. LOUIS, Aug. 16.—Emmet Divers, the negro who outraged and then killed Mrs. Cain near Fulton, Mo., a couple of weeks ago, and who was brought here for safe keeping, has been taken from the sheriff at Fulton by a mob and hanged to a railroad bridge. Divers was taken from here by Deputy Sheriff Buchanan of Calloway county.

A Ballplayer Badly Hurt.

DETROIT, Aug. 16.—In the eighth inning in the game between Detroit and Indianapolis, Canavan of the latter team hit a hot ball to Nicholson of the Detroiters, who, in trying to beat the batter to first base, made a misstep and seriously sprained a tendon of his groin. Nicholson fainted twice while being carried from the grounds.

Followed His Fate.

DETROIT, Aug. 16.—William Stoll, a prominent German citizen, was cited by hanging. His father, Julius, took his own life Jan. 14 last on account of financial troubles and that fact and some succeeding business difficulties caused the depression of mind, which led the son to suicide.

Amateur Quiet in Omaha.

OMAHA, Neb., Aug. 16.—The supreme court has arranged to take up the Omaha municipal muddle on quo warranto, each side to be given until the 22d to make their showing. A decision is expected before the end of the month. In the meantime all is quiet in the city.

Wilson Will Review the Parade.

WASHINGTON, Aug. 16.—Postmaster General Wilson has formally accepted the invitation of the National Letter Carriers' union to be present at their convention at Philadelphia next month. He will review the parade and call the convention to order.

THE STRAUSS CASE.

The Trustees Put Forward a Few Replies
For Mr. Gould.

EDITOR NEWS REVIEW.—Replying
to the article of A. R. Gould, relating
to the treatment of a family named
Strauss, permit us to say that Mr.
Gould would have been placed in a
position to publish facts had he called
at the office of the trustees. Ever
since we have been on the board of
trustees, with the exception of the
last year, we have aided the Strauss
family. They not only received aid
from us but also from the Grand
Army and the relief societies, and at
no time were they in a starving condi-
tion. They had advantages over
many families, for the reason they had
two boys able to work. We would
ask Mr. Gould what is his character.
Not only did David Strauss have sons,
but he was able and did do labor him-
self many times. He also drew a
pension, and his wife and daughter
were able to work. Now let us see.
Three men and two women to keep up
a family, and drawing a pension at
the same time. But to give the tax-
payers an idea of what we did for
them, we will quote a little from the
books. On June 5, 1891, June 27, Aug.
5, Aug. 19, Aug. 26, Sept. 5, we gave
Strauss \$3, and there are other en-
tries. Does this look as though the
trustees are trying to starve them out.
Not only did we give the money, but
we sent provisions and provided a
physician when necessary. If Mr.
Gould will ask Doctor Clark or Doctor
Williams he will learn how they were
treated when they called. Perhaps they
can relate a circumstance that will
make him open his eyes. At one time,
there was a sick child in the family.
We sent a doctor, but the child died,
and then we buried it. We at the same
time gave them an order for provisions.
Was that mistreating them? About
the same time Strauss got his pension,
and one of the trustees met him on
the street, and enjoyed it hugely. He
was drunk, staggering as he tried to
walk. He was told he should use his
money to buy food, and not spend it
for drink. The last time we were
called to see him he was found in
bed. When asked what was the mat-
ter he said he was sick. He was in-
formed that we would send a doctor,
but he said not to send Doctor Clark,
but to let him die in peace. I told
him all right, I would send Doctor
Williams, and he asked who was Wil-
liams. I told him and sent Williams,
but instead of finding Strauss in bed
he found him on the bank splitting
wood. Doctor Williams introduced
himself, but Strauss would have no-
thing to do with him. He would not
let the doctor touch him, and sent me
word that he did not want doctors, for
us to try them on ourselves. After
that we were never asked to help
them until one of the boys was in-
jured by the cars. Then they sent us
word to send them a doctor, and we
did. As for David Strauss being lazy,
we know nothing about that. When
he needed aid we gave it him, and we
would do it again. We expect to look
after the township and county funds,
and do not send out orders to satisfy
Mr. Gould. Our conscience is clear;
we have no cause to blush with shame.
Can Mr. Gould say amen?

J. W. ALBRIGHT,
JOSEPH BEARDMORE,
Trustees.

MAKE THE ROAD.

East End People Want the Proposed
Thoroughfare.

"I hope the city will vote in the
right way on the proposed boulevard,"
said a well known East End resident
today. "We want it up here because
we need some connection with the
town. We have none now, and would
scarcely know we were a part of Liver-
pool if we were not reminded by the
tax collector when we are called upon
to pay for improvements from which
we derive little if any benefit. All
we ask is justice, and it is not justice
to shut us off by that old river road
and expect us to transact our busi-
ness in town. Be fair, and give us
the road."

HUSTLING FOR OIL.

Big Leases Purchased Just Over the
River.

Duff Bros., the owners of extensive
leases in West Virginia, sold all the
claim they hold on the Ramsey and
Montgomery farms, aggregating 260
acres and 13 producing wells, to
H. J. Hopkins and other monied men
of Pleasantville. The wells are flow-
ing and are considered good property.
The price of the purchase is not
known. The Duffs have 1,000 acres
near Hookstown under lease, and have
built a rig on the Hood farm, and will
start the drill next week. The new
Stewart well will be commenced on
Monday.

NOTHING IN IT.

That Narrow Escape From Accident on
the Electric Line.

Motorman Deitz had a hearty laugh
at the expense of a local paper last
night, and had half a notion to be in-
dignant when some one congratulated
him on his narrow escape. He declares
that he did not shout for the people

to jump, and there was at no time
any danger of the cars coming to-
gether. They were on the same track
but under perfect control. The sen-
sational nonsense is only another
proof that when you see it in the
Crisis it isn't so.

POYSER IS WORSE.

The Injured Man Had a Very Bad
Night.

William Poyser was a very sick man
last night and was in a bad way for a
time, although the attending physi-
cians did not look upon the symptoms
as denoting an early dissolution. The
injured man vomited a great deal,
and was more nervous than he has
been at any time since the cutting af-
ray in which he was so deeply inter-
ested. The wounds are commencing
to heal, and everything known to
medical science is being done to save
him.

PROTECTED THE MINERS.

Sheriff Lodge Called to Washington,
ville.

Special to the NEWS REVIEW.

LISBON, Aug. 16.—Sheriff Lodge and
Deputy Moffat were called last night
to Washingtonville to protect a party
of miners from Pittsburg, who had
come there to take the places of the
striking men. The miners have been
demonstrative for several days, and
trouble was feared, but beyond a lot
of noise there was no trouble. The
officers escorted 15 strangers from the
station to the mines.

AWAY TONIGHT.

Governor and Mrs. McKinley Have Al-
most Finished Their Visit.

Governor and Mrs. McKinley will
leave this evening for Columbus, hav-
ing spent a week most enjoyably in
the city. The governor speaks at
Chautauqua next Thursday, and has
been resting here and preparing for
the event. Let us hope that the next
time he comes it will be as the candi-
date of his party for president, or, bet-
ter still, that he will occupy the great-
est place in the gift of the nation.

FOR MANY YEARS.

Says Mrs. Smith, She Stood Her Hus-
band's Cruelty.

Special to NEWS REVIEW.

LISBON, Aug. 16.—Mrs. Ella V.
Smith, of Salem, asked a divorce in
court today on the grounds of drunk-
enness and inhuman treatment. She
was married to Byron A. Smith in
1882, and has not been living with him
for three years.

The Others Waited.

It is related that two well known
young men of the city arranged the
other evening to call on an equal num-
ber of young ladies who are visiting in
town. The boys primed with special
care and looked too sweet for any-
thing, but they were late, and in the
meantime the girls were entertaining
other callers who entered into the
spirit of the joke and spent the even-
ing, while the boys sat on the veranda
for a time, wondering why they did
not go home. At length they became
disgusted, and left, and now their
friends have only to refer to the in-
cident to make them look daggers, and
all sorts of dangerous weapons.

In Squires Court.

The replevin case of the colored
Knights of Pythias against Alfred
Doozie to recover the secretary's books
and lodge seal will be heard before
Squire Rose tonight. The case will
no doubt be an interesting one.

The lawyers are charging the lawyers
with ingratitude, as they have not
helped business a particle since re-
turning from their three weeks vaca-
tion. The lawyers believe the lack of
trade is due to the good moral effect
their absence had on the general pub-
lic.

May Put Them In Jail.

The story is told today that more
illegal fishing is now going on in
Beaver creek, and a crowd of Liver-
pool men were near Grimm's bridge
last night, returning this morning
with more fish than they could have
caught with hook and line. The fish-
ing is very good, and crowds go out
every night, but it is the crowd who
fish at night the authorities want.

Business Men In Athletics.

There is unusual activity about the
Young Men's Christian association
rooms since Director Conkey came,
and much interest is being shown in
the work. A business men's class was
organized last night, and Mr. Conkey
will regularly instruct them in
athletics.

All About A Bill.

Isaac Burlingame paid \$6.60 at city
hall yesterday for disorderly conduct.
Ollie Manley had him arrested. Then
he sued Manley for \$1.50 claimed due
for work, and today Squire Rose dis-
missed the case at Burlingame's cost.

Attention Recalcitrants.

All members of Favorite Tent No.
175 are requested to meet in Recha-
belle hall at 10 a. m. Sunday, Aug. 18,
to attend church in a body. Let all
turn out. By order tent.

PERSONAL MENTION.

—Will Blythe went to Pittsburg on
business today.

—Doctor McVoy is home from a
visit with friends in Pennsylvania.

—Will Murphy was in New
Cumberland on business today.

—Reverend O'Mara went to Pitts-
burg on business this morning.

—James D. Fairchance, of Cleve-
land, was here on business today.

—Miss Helen O'Shay, of Sewickley,
was the guest of friends here today.

—Mr. Bartham, of Scio, was yester-
day the guest of Professor Gotschall.

—Mrs. Lavina Foutts returned this
morning from a visit with relatives in
Chicago.

—Miss Lindsay, of Pittsburg, is the
guest of Mrs. Frank Sebring at the
camp ground.

—Miss Jessie Stewart has returned
to her home in Allegheny after visit-
ing in this city.

—Mrs. J. E. McDonald is home after
a long visit to Gallipolis very much
improved in health.

—Mrs. James Stewart and children
returned today from a visit with
friends in Cleveland.

—Miss Hull, of Rock Island, Ill., is
being entertained by Mrs. William
Bolton, of Jackson street.

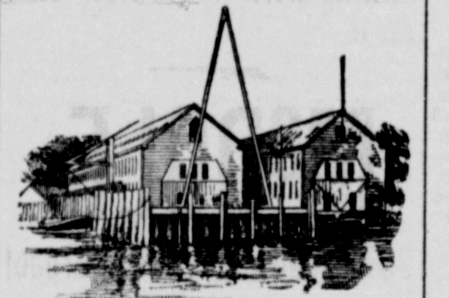

—Miss Annie Bell, of Bridgeport,
who has been visiting friends, re-
turned home this morning.

—Will Pope, proprietor of the
Thompson House, went last night to
Wisconsin, where his wife is critically
ill.

—Mr. and Mrs. David Boyce, Mrs.
John Gamble and son and the little
son of Mr. Anderson, of Broadway,
left this morning for Chautauqua.

The Herreshoff Works.

For several months the newspapers have
been teeming with news, speculation and
gossip from Bristol, R. I., which was there-
by given more advertising than the place
had ever before had in the total period
of its existence. All this was due to the fact
that the Herreshoffs had the Defender on
the ways there. It is perhaps not gener-
ally known that of the six talented brothers
of this family three are totally blind. John
B. Herreshoff is the president of the com-

THE HERRESHOFF WORKS.

pany, over whose affairs he exercises a con-
stant and close supervision despite his ter-
rible infirmity.
Captain Nat is, however, the transcen-
dent mechanical genius of the concern. He
designs all the vessels turned out from the
works. The largest of these is the torpedo
boat Cushing, and the most celebrated of
his creations are the Stiletto, Gloriana,
Vigilant, Defender and the catamaran Ta-
rantella, which in New York harbor in
1878 covered more than 21 miles in an
hour, a performance which still stands un-
rivaled. Captain Nat is not blind, and for
this reason is the best known of this
unique and really remarkable family,
which also gave to steamboats the coil
boiler now so generally used in yachts.

Did you ever see one of the famous
waterproof Interlined Collars or Cuffs?
It's very easy to tell, for they are all
marked this way

They are the only Interlined Collars
and Cuffs, and are made of linen, cov-
ered with waterproof "CELLULOID."
They'll stand right by you day in and
day out, and they are all marked this way

The first cost is the only cost, for
they keep clean a long time, and when
soiled you can clean them in a minute
by simply wiping off with a wet cloth
—that is the kind marked this way

Ask your dealer first, and take noth-
ing that has not above trade mark, if
you desire perfect satisfaction. All
others are imitations absolutely.

If you can't find collars or cuffs
marked this way, we will send you a
sample postpaid on receipt of price.
Collars, 25 cts. each. Cuffs 50 cts. pair.
Give your size and say whether stand-
up or turned-down collar is wanted.
THE CELLULOID COMPANY,
427-29 Broadway, NEW YORK.

CLINT R. COULTER.

A Fast Bicycle Rider Who is Bald's Most
Dangerous Rival.

E. C. Bald, the Buffalo racing man, is
generally conceded to be the fastest man
on the cycle track in America this year.
If Clint R. Coulter, the Toledo rider, can
keep up his recent pace he will soon dis-
place the class B king, for his work dur-
ing the last month has been little short of
phenomenal. At any rate the knowing
ones assert that if any one is to strip Bald
of his laurels Coulter is the man.

At the opening of the season the Toledo
scooter started off very poorly, and those
who had tipped him as a phenomenon were

CLINT R. COULTER.

laughed at. As the summer advanced,
however, Coulter began to justify the pre-
dictions of his admirers, and one after an-
other of the crack riders of the big circuit
were beaten by him. He is a dashing rac-
er, who can come with a Bald spurt at the
finish or set the pace from the beginning
when necessary.

It has been reported that very alluring
offers have been made to Coulter for the
purpose of inducing him to become an out
and out professional, but the young man
has persistently declined. He would cer-
tainly be able to win most of the cash prize
races if he could maintain his present
form, for none of the "pros" except John
son is doing really creditable work.

This Made the Ex-Champion Tired.

John L. Sullivan told a Boston Herald
man of an incident which happened not
long ago when on the train back to Boston
from Jack Dempsey's benefit. "I had a
special section of the car and got talking to
the sleeping car conductor. He said that
he had lived in Boston about 11 years and
had been working on the road about two
months. I remarked that he must be pret-
ty well acquainted in Boston. He allowed
that he was. 'Then you must know of
me,' I said. He looked me over again and
said, 'No, I can't say I do.' 'I'm Sulli-
van,' said I, but I could see that that
didn't make him any the wiser, so I added
that I was John L., and then he didn't
tumble. Finally I had to tell him that I
was John L. Sullivan, the pugilist. What
do you think of that for ignorance? Isn't it
enough to take the conceit out of a man?"

Steel May Supplant Ivory.

Billiard balls of cast steel have been
made and used successfully at Stockholm.
They are hollow and weigh about as much
as the ordinary ivory balls. A lathe is used
to turn them to perfect smoothness.

Gilmore's Aromatic Wine--
A tonic for ladies. If you are
suffering from weakness, and
feel exhausted and nervous;
are getting thin and all run
down, Gilmore's Aromatic
Wine will bring roses to your
cheeks and restore you to
flesh and plumpness. Mothers,
use it for your daughters. It
is the best regulator and cor-
rector for all ailments peculiar
to womanhood. It promotes
digestion, enriches the blood
and gives lasting strength.

UNCLESAM'S SNAG BOAT

A Peep Into the Mysteries of the Woodruff.

CAPTAIN CHRISTIAN'S CRAFT

Machinery Does the Work Wherever Possible—He is Not Afraid of Accidents. Handsomely Appointed and Conveniently Arranged, It is One of the Best in the Service.

The government boat tied up at the foot of Market street is a beauty, and Captain Christian took pleasure in showing a reporter through the craft.

The E. A. Woodruff is a craft worth walking miles to see. It is built almost entirely of iron, and differs from the ordinary steamer in appearance by having a double bow, or what at first looks like two bows. They are connected, however, by an iron platform a short distance below the surface of the deck. Above this hangs a large hook at the end of a strong chain and its work is that of scouring the bed of the rivers in search of obstacles which makes navigation dangerous.

At the extreme front is an A frame, and it is most useful in removing sunken barges, the force exerted being far beyond human comprehension. The frame is operated by a rope passed around what the boatmen call an elliptical drum. It allows any desired length of cable without adding to the original, for as one end is wound the other unwinds. Captain Christian, the whole-souled commander of the boat, met so many obstructions in the progress of his work that he conceived the idea and was about to put it into execution when he found that some other boatman had met with the same difficulties and conceived the same idea. The main frames placed in front of the boat do the greater part of the dragging, and are controlled by a great chain made of 2 1/2 inch bar iron. The lifting force is 240 tons, and when at work they move with a deliberation but a certainty that always brings what is on the bottom of the river. The boat itself is a model of safety and convenience. Down in the hull are 25 water tight compartments and a hole knocked in any one will not cause the boat to sink for the others will float it as easily as if no hole was there. This arrangement has been found decidedly useful on more than one occasion, as the boat has seen some rough service. With that care of everything always found on the property of our Uncle Samuel, the boat shines like a new dollar, and there is not a spot of dirt to mar its beauty. An example of this is seen in a great rack which stands where it can be readily reached. It is filled with bright and shining tools, the implements used every day when the men are at work. Some of them bear the marks of rough usage only so far as scars on the wooden handles are concerned, for the metal is as pretty as the day it came from the factory. Captain Christian remarked to the reporter as he gazed in wonder at the splendid array: "The greater part of our visitors think those tools are for show, but they would change their mind at once if they saw the boys use them."

It is part, and a great part too, of the discipline of the boat to keep those tools in the best possible order, and it is a duty never neglected. All the metal work is in the same condition. Where the iron is painted it is always neat and clean, and the brass and nickel appointments are as bright as the day they were first placed in position. The steering gear is the most improved pattern, and is operated by an hydraulic pump of great power. It materially lessens the danger of accident and gives the pilot time to occasionally wipe the perspiration from his fevered brow. An auxiliary boiler is another important part of the equipment. It is a great economizer of fuel, and shows that the government saves in this respect at least all that can be saved. It is used for working the machinery when the craft is tied up as at present, for the use of the big boilers with so little to do would be an extravagance which even Uncle Sam could not endure. The interior of a section devoted to industry is a busy workshop, carpenters, blacksmiths, machinists and plumbers finding many tasks to occupy their attention. They are busy all the time, and work with a cheerfulness which cannot be mistaken. A heavy drilling machine and a large lathe occupy prominent positions and are frequently used. Almost every piece of machinery is operated by steam, and the latest inventions are seen everywhere. Captain Christian never fears a break, because he knows his men are competent,

if it became necessary, not only to make repairs, but to build a new boat. It is a serious break that compels them to stop at all, so complete is the system. And the inner man is not forgotten. A large refrigerator is built as a part of the boat for the purpose of keeping the reserve provisions on the lower deck, and just above it is a vegetable room, smaller in size, but equally as frigid in temperature. The dining room is commodious, allowing ample room, for every man. Above the table is a system of fans, and the annoying house fly is unknown. A suite of rooms, splendidly furnished, is always kept for Colonel Stickney, the army officer in charge of the river, but he seldom uses them, as his work keeps him close in Cincinnati. The captain has three rooms conveniently arranged and plentifully provided with comforts. The reception room is a beauty, but when winter comes he transforms it into an office, where arrangements are made for the coming year. The boat throughout is provided with bath rooms, and comforts for the 40 men who make up its crew, and is as pleasant a home as could well be found.

Captain Christian and his officers are gentlemanly and pleasant, treating visitors with an easy grace which can not but appear in every action. They will remain here until a sufficient stage of water allows them to move out, and are making many friends by their many actions. Will H. Surles is entertaining them almost every day and they thoroughly enjoy it.

IMPROVING THE RIVER.

Good Plans for the Future Well Under Way.

The Cincinnati Times-Star has this interesting information for river towns:

"The joint committee of the chamber of commerce and freight bureau on Ohio river improvement met in the freight bureau room Tuesday morning. Paris C. Brown was made chairman and Colonel E. P. Wilson secretary. The purpose of the meeting was to arrange for a river improvement convention, to be held in this city, to be composed of delegates from the cities and towns in Pennsylvania, West Virginia, Ohio, Kentucky, Indiana and Illinois, that are interested in the navigation of the Ohio, and, of course, its improvement."

"It was decided to name Tuesday, October 8, as the date for the convention, and Secretary Wilson was instructed to issue invitations to the various chambers of commerce and boards of trade or other associations whose members are interested. Senators and representatives in the various states will also be invited to attend. Secretary Wilson was also instructed to prepare statistics of Ohio river tonnage, as compared with the tonnage of the Mississippi, Missouri, Red and other rivers, to show the importance and necessity of the improvement of the Ohio."

"Secretary Wilson showed a map, which had been prepared by the late United States engineer, Colonel Merrill, showing the proportionate tonnage by red lines, and the committee was astonished (with the exception of river men present) upon realizing through this object lesson that the tonnage of the Ohio river exceeded that of the Missouri, and even of the father of waters, the old Mississippi, itself. This map will be reduced and used upon the invitations and literature which will be sent out. The meeting adjourned subject to the call of the chair."

HOME FROM THE MOUNTAINS.

The West Virginia Party Arrived at Midnight.

The camping party who have been enjoying the mountains of West Virginia and fishing in the waters of the Potomac arrived home at midnight. They caught 200 fish and ate them, and slaughtered so many squirrels that the count was lost a few days after they pitched their tents. Not one accident happened to take away any part of the pleasure, and some of them lay claim to being the most peaceful people on earth. West Virginia wept when they left, but dried its tears and smiled again as they promised to come back next year.

A DEPOSITION.

Foyser's Condition is Critical, So He Was Sworn Today.

Such was William Foyser's condition today that his deposition was taken for use by the state, and will in all probability be used in the hearing tonight.

The exact time has not been set for the hearing but it is expected that it will take place this evening. Deamore will probably set up a plea of self defense.

WE GET A GOOD THING

The Building and Loan Men Will Come.

THREE CANDIDATES CONSIDERED

But the Other Two Could Not Win. Columbus Was After the Honor, but J. J. Purinton Landed the Plum—The Importance of the Gathering.

J. J. Purinton is home from the convention of building and loan men at Springfield with a glad smile on his handsome face, for he knows way down in his heart that he landed the plum and East Liverpool gets the meeting next year.

The convention was called at Springfield in the massive city hall, and when the roll was called 85 delegates were there to answer present.

When the vote was taken for the next place of meeting a number of delegates were absent, many of them being favorable to Liverpool, and Mr. Purinton quaked for a little while. But like the careful man of politics that he is he had looked over the ground thoroughly, and knew he would win, although it would be a close call. The vote showed Columbus 21, Norwalk 6, and Liverpool 23, which sent the convention here. It will be held the second week in August next year, and complete preparations should be made to give the delegates a pleasant visit, compelling them to acknowledge Liverpool as the greatest city of its class in Ohio.

Much other business was transacted by the convention, among the most important being the selection of H. F. Cellarius, Rufus Jones and R. W. Patterson, of Dayton, E. R. Hyatt, Toledo; L. M. Studevant, Sidney; A. H. Noah, Akron; C. H. Gallup, Newark; Fred Bader, Cincinnati, and J. J. Purinton as a committee to look after the funds to be collected for the erection of a memorial to Judge Winters, of Dayton, the best friend the building and loan associations of Ohio ever knew.

The importance of the building and loan business of the state cannot be overestimated. The report for last year shows that they had in their keeping \$86,047,104.11, an increase of more than eight per cent over the business of the preceding year. The authorized capital stock is over \$757,000,000, and dividends last year amounted to over \$5,000,000, the whole expense of investing and managing this vast amount of money being but little in excess of one per cent. The disbursements for the year were \$62,142,603.78, and there is a general air of prosperity about them which shows careful business management. At one time Governor McKinley was a building and loan secretary at Canton, and who knows but what that is a clear path to the presidency. East Liverpool should not allow itself to be beaten by other cities in its entertainment of these enterprising men.

LITTLE SUCCESS

Being Met by the Men Searching for Lenz's Remains.

A dispatch from Washington says: "The state department has been informed by Minister Terrill in Turkey that he has for three months been urging an investigation into the death of Frank Lenz. Mr. Terrill says that in order to comply with the request of Mr. Sachtleben, sent to investigate the case, that he be given authority to search the residences of the Kurds for relics of the bicyclist and proofs of his death, an army would be necessary. These Kurds live in the hills and mountains, and would not permit a stranger and a foreigner to enter their houses, even though armed with the authority of the Turkish government. Mr. Terrill says that he expects to secure a guard of Turkish troops, who will accompany Sachtleben into the country of the Kurds for the purpose of recovering the remains of Lenz."

COMPANY E ALL RIGHT.

A Fall Turnout at Company Drill Last Night.

Company E met last night at the rink for regular drill, and for two hours the boys did earnest work and made rapid improvement in the manual of arms and in stacking of arms with the swivel. The instructor expressed himself as highly pleased with the attention paid by the members, and their evident desire to do good work. Captain Walter Supplee states that he has all the members he desires, and that the organization will go into camp at Newark on Aug. 31, fully equipped and in good condition. He will take with him 32 privates and corporals, five sergeants and two commissioned officers, and possibly a third commissioned officer,

in case the latter, lately elected, passes his examination successfully. The men will be required to have their equipments put in first-class shape, belts neatly blackened, brasses shining and everything in apple pie order.

The company voted to purchase campaign hats, a kind that is much lighter than the fatigue cap. Captain Supplee has also placed an order for china canteens for the entire company, and they will be about the handiest thing in camp, as well as a novelty and a good advertisement for the city.

W. J. Terrence is now first sergeant, Frank Hanley second sergeant, William Moore third sergeant, and F. Leslie Trump fourth sergeant. The place of fifth sergeant is yet vacant, and will be filled some time in the future, by one most competent and worthy.

PATRICK MCUNE DEAD.

He Was Only Ill a Few Hours and Passed Away Last Night.

Patrick McCune, a well known resident of Lincoln avenue, was seemingly as well as ever early yesterday evening, but in a few hours he was dead, having been seized an old complaint.

He was at work on Saturday, and since then has not been complaining a great deal, but when he was seized last night the attending physician knew he could not recover. He was 55 years of age and a widower his wife having died several years ago. He leaves a large family some of the children being grown to manhood. Deceased was employed at the Brunt pottery as dipper, and had a large circle of friends. The funeral will take place from the Catholic church tomorrow morning.

IT IS COMING.

A Good Fall Trade in Pottery is Promised.

The New York correspondent of a trade paper says:

"I have yet to hear among the New York crockery and glass men one serious doubt expressed as to the favorable prospects for the fall trade. There seems, however, to be some division of opinion as to the exact time matters may be expected to take. Some contend that the many buyers whose stocks have been allowed to run low during the past two years, will be forced to buy early and will place larger orders than for some years past. Others believe that the orders will come in slowly at first and will call for small amounts, but that the season will be a long and withal a profitable one."

SENATOR WOOD BURIED.

The Funeral Took Place Yesterday Afternoon.

The remains of the late Hon. J. A. B. Wood were interred in the little cemetery at Smithfield yesterday afternoon, a large concourse of friends and relatives being present. The committee from the senate was composed of Senator McConica, of Findlay, Senator Hogg, of Cadiz, Senator Ohl, of Youngstown, Senator Whittlesey, of Atwater, Senator Eckels, of Carrollton, Senator Stillwell, of Millersburg, and Clerk Caine.

The latest aspirant for the place is Hon. S. B. Taylor, of Toronto. His friends are pushing him with the claim that he is the only man in the district for the place.

A SUSPICIOUS LOT.

They Frequently Loiter About West End Residences.

A suspicious-looking pair of strangers have been loitering about West End these past few days, and many believe they are looking for an easy house to enter. John Rapp found them in his back yard last night, and watched them closely, but they made no move, except to look the house over with as much care as though they intended to buy it. A few nights ago someone pried the fastening from his cellar door, but nothing was stolen. These parties have been seen examining chicken coops, and they are believed to be after what few fowls are left in that part of the city.

MR. CRAWFORD DEAD.

A Coincidence in Connection With His Unexpected Demise.

Mr. and Mrs. A. G. Minehart and family left today for Brownsville, Pa., called there by the death of Mrs. Minehart's father, Mr. Crawford. Deceased is also the father of O. C. Crawford, of the West End Presbyterian chapel. He was a prominent and respected resident of Brownsville. A peculiar coincidence in connection with his demise is that he died while Mr. Minehart was camping along the Potomac river, and Mr. Minehart's father died while his son was camping last year.

THEY WON THE TROPHY

Ceramic City Cycle Club Boys Were In It.

THE TEN MILE RACE IS THEIRS

It Was Hard Work, But They Carried Off the Honors—The First Time the Local Club Has Appeared in a Noted Contest.

Liverpool was largely in evidence at the bicycle races in Pittsburgh last night, and unless some unforeseen accident of which nothing is known here appears to mar the beauty of winning the prize the silver trophy, the best of the races, is in possession of the C. C. C. C.

The ten mile team race was interesting, four clubs competing. They were the Westmoreland Wheelmen, the Allegheny Cyclers, the Ellsworth team and the C. C. C. C. The Ohio boys won with 34 points. Westmoreland got 29, and Shadyside 10. Irons, Goble and Mazer were the only ones to go to a finish. In the sixth mile a bad smash occurred, in which four men were put out of the race. Walters' wheel shot from under him while rounding the turn and he went down, Snell, Worthington and Wildanger piling on top of him. Walters was slightly hurt. Twelve men started, but they dropped out one by one, until only the three were left. It was a good race, the time being 28:07 1-5.

Trappe was paced in a quarter against time, but did not finish in anything like order. Hale got first in the mile open, doing some hard riding and good work to win out. All the boys were in good form and road their best. The team race was the event of the evening, and the manner in which they carried off the prizes won the plaudits of the multitude. They are expected home this evening.

THEY WERE MARRIED.

But Had a Hard Luck Time of It Last Night.

August S. Vetter and Miss Mary Blanche Calhoun, from Pennsylvania, were married by Reverend Rineart this morning.

The young couple arrived on the midnight train, and could not arouse the porter at the hotel they visited so they went back to the station and sat on the steps until morning. Then they hid themselves to Squire Manley's, the telephone secured the license, and they were wed. The groom was so tired that he fell asleep in the depot before the noon train arrived. The bride is a pretty girl of perhaps 20 summers, and the groom an intelligent looking German.

CLOSED THE STORE

While E. K. Chamberlain Was Absent From the City.

Constable Lyon this morning closed E. K. Chamberlain's place of business on Sixth street on one execution of A. C. Ellis & Co., Pittsburgh, for \$184.40 and another for \$26.50 by Parcels & Jones, of Pittsburgh.

Mr. and Mrs. Chamberlain have been in Atlantic City, and Ira Chamberlain has had charge of the store. He states that Ellis' bill was not pushed through fear that it would not be paid, as Mr. Chamberlain paid two-thirds of the entire amount on Aug. 5. Mr. Chamberlain was telegraphed for and will be home today, and expects to settle the matter quickly.

JAMES HAD A JAG

And Was Jailed in a Jiffy When He Awoke.

James Sharp was drunk last night, despite his solemn promise to Mayor Gilbert that he would never again look upon the liquid which produces jags.

He became very boisterous when Officer Earl called him to account and swore large and strong swear words. Therefore the officer escorted him to the city jail and he is still in jail today. His only possession was a pint of bad whisky that would kill an anarchist, and only a third of the stuff remained in the bottle.

A LOUD REPORT

And Then the Chap Dropped Into a Big Barrel.

Parties near the D. E. McNicol pottery last evening were startled by a loud report, and thinking something had exploded a crowd quickly gathered. They were speedily informed that a man had been sitting on the head of a cask of big size, when, without warning his body sank out of sight, his feet went heavenward, and the noise was heard. He was not hurt, but wore that wish-I-was-a-thousand-miles-away look as he climbed out of the broken cask.

ROYAL BAKING POWDER CO., 106 Wall St., N. Y.

AS BAD AS THE TURKS.

Minister Terrell Exposes the Rebellious Armenians.

PLOTTING TO KILL AMERICANS.

They Had Marked the American Professors at Marsovan For Death Long Before the Sassoon Atrocities—Turkish Soldiers Guard Their Families.

WASHINGTON, Aug. 16.—The department of state has just received from Minister Terrell a report which throws some light on the report telegraphed from Constantinople a few days ago saying that American citizens had been injured at Marsovan. From Minister Terrell's report it appears that on July 14 an Armenian named Garabed was assassinated at Marsovan, close to the church door, as he was going to attend early service.

Among those arrested for the crime was a naturalized American citizen who had been a student at the American college at Marsovan, but who, as Consul Jewett was informed, had been dropped from the rolls some months before.

Minister Terrell was promptly informed concerning the assassination and the imprisonments which followed it, and took immediate steps to insure fair treatment of the naturalized citizens, and called upon Mr. Jewett for any trustworthy information he might have regarding the danger to the mission teachers at Marsovan from Armenian revolutionists, by reason of threats to assassinate them, and also the precautionary measures for their protection afforded or tendered by the local Turkish authorities. He informed Mr. Jewett that while Turkey has a right to expel undesirable classes of people from her territory, she has no right to treat the acquired American citizenship of any of them as an offense, and to imprison them for that cause, nor to imprison them on mere suspicion. He instructed him in such cases promptly to demand their release, and that if any of them are arrested while engaged in demand a fair trial. Mr. Terrell's report of the Marsovan affair is based upon a verbal statement of Mr. Dwight, a leading American missionary at Constantinople, and is as follows:

"More than a year ago 16 persons at Marsovan received written notice that they would be killed unless they would co-operate with the Armenian revolutionists. President Tracy and Prof. Riggs of Marsovan college were two of these. They had incurred the ill will of the revolutionists by refusing to receive in the college the sons of certain expelled of former revolutionists. Garabed, who was assassinated, was another of the 16 who received notice, and Mr. Dwight has been informed that still another has been assassinated. A Turkish guard was furnished at the request of Mr. Terrell to protect the American families from the assassins. Mr. Dwight considers this guard sufficient to protect the missionaries at the college, and Mr. Terrell has not applied for an additional force.

"The local governor informed the Armenians, after the killing, that he intended to arrest all suspected persons and imprison them until they revealed the names of the guilty ones; that their object was to provoke Turkish vengeance in order to secure the sympathy and intervention of Christian Europe, but that they would not succeed, as he had caused to be preached in the mosques for months that such was their object, and that any Turk who killed a Christian would be the worst enemy of Islam."

Mr. Terrell adds that the revolutionists at Marsovan had organized and marked the American professors long before the Sassoon atrocities.

The Weather.
Fair, easterly winds.

PITH OF THE NEWS

Silas Pettit makes serious charges against the Northern Pacific receivers and President Henry Villard.

Edward Warren Ball, suspected of complicity in the Drury robbery, in Brooklyn, prison, and shooting him while drinking. McCann had been arrested.

Cuban insurgents will shortly petition this government to recognize them as belligerents.

West Virginia is being flooded with greenbacks literature from a New York firm. They have an agent located at Weston, who receives telegrams addressed to "A. H. Lincoln." The officers are after him. Lincoln county farmers have been lincensed out of fully \$12,000 within three weeks.

Albert Fisher and Oscar Dawson of New York were arrested by United States Marshal Doc Smith of Huntington, W. Va. They are charged with the robbery of postoffices in West Virginia and Kentucky.

The trial of Ryland Watson will begin Aug. 19 at Hamilton, W. Va. Watson is charged with offering Albert McCann, prisoner, and shooting him while drinking. McCann had been arrested.

The grand jury at New Orleans has presented nine indictments against M. Rice J. Hart, four for perjury, one for obstruction of justice and four for having obtained money from the traction company by false representation, the amounts ranging from \$5,000 to \$100,000. Bail was fixed at \$5,000 on each indictment.

LOWNDES FOR GOVERNOR.

Maryland Republicans Meet and Name a State Ticket.

CAMBRIDGE, Md., Aug. 16.—The Republican state convention nominated the following ticket by acclamation: For governor, Lloyd Lowndes of Cumberland; attorney general, Harry M. Clabaugh of Baltimore; comptroller, Robert P. Graham of Wicomico county.

The strength of the Lowndes element was shown early in the proceedings by the choice of John C. Rose for temporary chairman. This was soon followed by the formal withdrawal of the name of William T. Maister, who had made a special canvass for the gubernatorial nomination. Lowndes' nomination was then made by a standing vote amid much enthusiasm. The other candidates were nominated with little opposition. The principal planks of the platform read as follows:

"The Republicans of Maryland favor such a system of impost duties as shall protect American industries and provide sufficient revenue for the expenses of government economically administered, so that in time of peace the national debt shall not be increased.

"They oppose any legislation which shall seek to create in this country any other or different monetary standard than that of the gold dollar, or the issuance by the government, or by its authority or permission of any form of currency except such as shall be convertible into gold at its face value by the holder thereof at his pleasure."

Likely to Lynch the Murderer.

VALPARAISO, Ind., Aug. 16.—At Chesterton, north of this city, Will Tratedas, 20 years old, and Lon Powers, 21, became involved in a dispute, and Powers killed Tratedas by shooting him twice with a revolver. Tratedas was a prominent young man. A large crowd has congregated around the building where Powers is confined and threats of lynching are heard.

Pugilist Corbett Married.

ASBURY PARK, N. J., Aug. 16.—Pugilist James J. Corbett and Jessie Taylor, known as "Vera Stanwood," have been married at Asbury Park. The woman figured as co-respondent in Mrs. Ollie Lake Corbett's recent suit for divorce. The couple went to Niagara Falls, to be gone ten days.

Prominent Men Sentenced For Life.

BRANDON, Miss., Aug. 16.—When Marshall, Coleman and Fox, prominent politicians, were arraigned in court for the murder of T. D. Dinkins, another prominent politician, a few days ago, all three entered a plea of guilty and were sentenced to the state penitentiary for life.

Noted Gospel Singer Dead.

CHICAGO, Aug. 16.—Miss Olive L. Willson, daughter of the well-known evangelists, Mr. and Mrs. Clark Willson, and niece of P. P. Bliss, the famous composer of gospel hymns, has died of brain fever in this city. Miss Willson had an atonal reputation as a contralto.

New Naval Drydock Opened.

PORT ROYAL, S. C., Aug. 16.—The new government drydock has been opened for the first time. The United States steamer Amphitrite was the first vessel to be docked, and this was successfully accomplished.

One Killed and Five Injured.

UTICA, N. Y., Aug. 16.—A temporary elevator used in hoisting building material on the Martin block fell to the bottom of the cellar and Jeremiah Hess was killed and five others were injured, two so badly they cannot recover.

THE STRAUSS CASE.

The Trustees Put Forward a Few Replies
For Mr. Gould.

EDITOR NEWS REVIEW.—Replying
to the article of A. R. Gould, relating
to the treatment of a family named
Strauss, permit us to say that Mr.
Gould would have been placed in a
position to publish facts had he called
at the office of the trustees. Ever
since we have been on the board of
trustees, with the exception of the
last year, we have aided the Strauss
family. They not only received aid
from us but also from the Grand
Army and the relief societies, and at
no time were they in a starving con-
dition. They had advantages over
many families, for the reason they had
two boys able to work. We would
ask Mr. Gould what is their character.
Not only did David Strauss have sons,
but he was able and did do labor him-
self many times. He also drew a
pension, and his wife and daughter
were able to work. Now let us see.
Three men and two women to keep up
a family, and drawing a pension at
the same time. But to give the tax-
payers an idea of what we did for
them, we will quote a little from the
books. On June 5, 1891, June 27, Aug.
5, Aug. 19, Aug. 26, Sept. 5, we gave
Strauss \$3, and there are other en-
tries. Does this look as though the
trustees are trying to starve them out.
Not only did we give the money, but
we sent provisions and provided a
physician when necessary. If Mr. Gould
will ask Doctor Clark or Doctor Williams
he will learn how they were treated
when they called. Perhaps they can re-
late a circumstance that will make him
open his eyes. At one time there was
a sick child in the family. We sent a
doctor, but the child died, and then
we buried it. We at the same time
gave them an order for provisions.
Was that mistreating them? About
the same time Strauss got his pension,
and one of the trustees met him on
the street, and enjoyed it hugely. He
was drunk, staggering as he tried to
walk. He was told he should use his
money to buy food, and not spend it
for drink. The last time we were
called to see him he was found in
bed. When asked what was the matter
he said he was sick. He was in-
formed that we would send a doctor,
but he said not to send Doctor Clark,
but to let him die in peace. I told
him all right, I would send Doctor
Williams, and he asked who was Will-
iams. I told him and sent Williams,
but instead of finding Strauss in bed
he found him on the bank splitting
wood. Doctor Williams introduced
himself, but Strauss would have noth-
ing to do with him. He would not let
the doctor touch him, and sent me
word that he did not want doctors, for
us to try them on ourselves. After
that we were never asked to help
them until one of the boys was in-
jured by the cars. Then they sent us
word to send them a doctor, and we
did. As for David Strauss being lazy,
we know nothing about that. When
he needed aid we gave it him, and we
would do it again. We expect to look
after the township and county funds,
and do not send out orders to satisfy
Mr. Gould. Our conscience is clear;
we have no cause to blush with shame.
Can Mr. Gould say amen?

J. W. ALBRIGHT,
JOSEPH BEARDMORE,
Trustees.

MAKE THE ROAD.

East End People Want the Proposed
Thoroughfare.

"I hope the city will vote in the
right way on the proposed boulevard,"
said a well known East End resident
today. "We want it up here because
we need some connection with the
town. We have none now, and would
scarcely know we were a part of Liver-
pool if we were not reminded by the
tax collector when we are called upon
to pay for improvements from which
we derive little if any benefit. All
we ask is justice, and it is not justice
to shut us off by that old river road
and expect us to transact our busi-
ness in town. Be fair, and give us
the road."

HUSTLING FOR OIL.

Big Leases Purchased Just Over the
River.

Duff Bros., the owners of extensive
leases in West Virginia, sold all the
claim they hold on the Ramsey and
Montgomery farms, aggregating 200
acres and 13 producing wells, to
H. J. Hopkins and other monied men
of Pleasantville. The wells are flow-
ing and are considered good property.
The price of the purchase is not
known. The Duffs have 1,000 acres
near Hookstown under lease, and have
built a rig on the Hood farm, and will
start the drill next week. The new
Stewart well will be commenced on
Monday.

NOTHING IN IT.

That Narrow Escape From Accident on
the Electric Line.

Motorman Deitz had a hearty laugh
at the expense of a local paper last
night, and had half a notion to be in-
dignant when some one congratulated
him on his narrow escape. He declares
that he did not shout for the people

to jump, and there was at no time
any danger of the cars coming to-
gether. They were on the same track
but under perfect control. The sen-
sational nonsense is only another
proof that when you see it in the
Crisis it isn't so.

POYSER IS WORSE.

The Injured Man Had a Very Bad
Night.

William Poyser was a very sick man
last night and was in a bad way for a
time, although the attending physi-
cians did not look upon the symptoms
as denoting an early dissolution. The
injured man vomited a great deal,
and was more nervous than he has
been at any time since the cutting af-
fray in which he was so deeply in-
terested. The wounds are commencing
to heal, and everything known to
medical science is being done to save
him.

PROTECTED THE MINERS.

Sheriff Lodge Called to Washington,
Vile.

Special to the NEWS REVIEW.

LISBON, Aug. 16.—Sheriff Lodge and
Deputy Moffat were called last night
to Washingtonville to protect a party
of miners from Pittsburg, who had
come there to take the places of the
striking men. The miners have been
demonstrative for several days, and
trouble was feared, but beyond a lot
of noise there was no trouble. The
officers escorted 15 strangers from the
station to the mines.

AWAY TONIGHT.

Governor and Mrs. McKinley Have Al-
most Finished Their Visit.

Governor and Mrs. McKinley will
leave this evening for Columbus, hav-
ing spent a week most enjoyably in
the city. The governor speaks at
Chautauqua next Thursday, and has
been resting here and preparing for
the event. Let us hope that the next
time he comes it will be as the candi-
date of his party for president, or, bet-
ter still, that he will occupy the great-
est place in the gift of the nation.

FOR MANY YEARS.

Says Mrs. Smith, She Stood Her Hus-
band's Cruelty.

Special to NEWS REVIEW.

LISBON, Aug. 16.—Mrs. Ella V.
Smith, of Salem, asked a divorce in
court today on the grounds of drunk-
enness and inhuman treatment. She
was married to Byron A. Smith in
1882, and has not been living with him
for three years.

The Others Waited.

It is related that two well known
young men of the city arranged the
other evening to call on an equal num-
ber of young ladies who are visiting in
town. The boys primed with special
care and looked too sweet for any-
thing, but they were late, and in the
meantime the girls were entertaining
other callers who entered into the
spirit of the joke and spent the even-
ing, while the boys sat on the veranda
for a time, wondering why they did
not go home. At length they became
disgusted, and left, and now their
friends have only to refer to the in-
cident to make them look daggers, and
all sorts of dangerous weapons.

In Squires Court.

The replevin case of the colored
Knights of Pythias against Alfred
Dozette to recover the secretary's books
and lodge seal will be heard before
Squire Rose tonight. The case will
no doubt be an interesting one.

The squires are charging the lawyers
with ingratitude, as they have not
helped business a particle since re-
turning from their three weeks vaca-
tion. The lawyers believe the lack of
trade is due to the good moral effect
their absence had on the general pub-
lic.

May Put Them In Jail.

The story is told today that more
illegal fishing is now going on in
Beaver creek, and a crowd of Liver-
pool men were near Grimm's bridge
last night, returning this morning
with more fish than they could have
caught with hook and line. The fish-
ing is very good, and crowds go out
every night, but it is the crowd who
fish at night the authorities want.

Business Men In Athletics.

There is unusual activity about the
Young Men's Christian association
rooms since Director Conkey came,
and much interest is being shown in
the work. A business men's class was
organized last night, and Mr. Conkey
will regularly instruct them in
athletics.

All About a Bill.

Isaac Burlingame paid \$6.60 at city
hall yesterday for disorderly conduct.
Ollie Manley had him arrested. Then
he sued Manley for \$1.50 claimed due
for work, and today Squire Rose dis-
missed the case at Burlingame's cost.

Attention Recalcitrants.

All members of Favorite Tent No.
175 are requested to meet in Recha-
bite hall at 10 a. m. Sunday, Aug. 18,
to attend church in a body. Let all
turn out. By order tent.

fall style of hats.

PERSONAL MENTION.

—Will Blythe went to Pittsburg on
business today.

—Doctor McVoy is home from a
visit with friends in Pennsylvania.

—Will Murphy was in New
Cumberland on business today.

—Reverend O'Mara went to Pitts-
burg on business this morning.

—James D. Fairchance, of Cleve-
land, was here on business today.

—Miss Helen O'Shay, of Sewickley,
was the guest of friends here today.

—Mr. Bartham, of Scio, was yester-
day the guest of Professor Gotschall.

—Mrs. Lavina Foutts returned this
morning from a visit with relatives in
Chicago.

—Miss Lindsay, of Pittsburg, is the
guest of Mrs. Frank Sebring at the
camp ground.

—Miss Jessie Stewart has returned
to her home in Allegheny after visit-
ing in this city.

—Mrs. J. E. McDonald is home after
a long visit to Gallipolis very much
improved in health.

—Mrs. James Stewart and children
returned today from a visit with
friends in Cleveland.

—Miss Hull, of Rock Island, Ill., is
being entertained by Mrs. William
Bolton, of Jackson street.

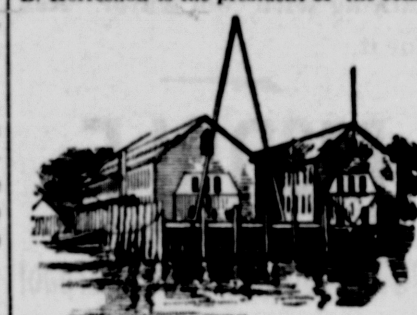

—Miss Annie Bell, of Bridgeport,
who has been visiting friends, re-
turned home this morning.

—Will Pope, proprietor of the
Thompson House, went last night to
Wisconsin, where his wife is critically
ill.

—Mr. and Mrs. David Boyce, Mrs.
John Gamble and son and the little
son of Mr. Anderson, of Broadway,
left this morning for Chautauqua.

The Herreshoff Works.

For several months the newspapers have
been teeming with news, speculation and
gossip from Bristol, R. I., which was there-
fore given more advertising than the place
had ever before had in the total period of
its existence. All this was due to the fact
that the Herreshoffs had the Defender on
the ways there. It is perhaps not gener-
ally known that of the six talented brothers
of this family three are totally blind. John
B. Herreshoff is the president of the com-

THE HERRESHOFF WORKS.

pany, over whose affairs he exercises a con-
stant and close supervision despite his ter-
rible infirmity.

Captain Nat is, however, the transcen-
dent mechanical genius of the concern. He
designs all the vessels turned out from the
works. The largest of these is the torpedo
boat Cushing, and the most celebrated of
his creations are the Siletto, Gloriana,
Vigilant, Defender and the catamaran Ta-
rantella, which in New York harbor in
1878 covered more than 21 miles in an
hour, a performance which still stands un-
rivaled. Captain Nat is not blind, and for
this reason is the best known of this
unique and really remarkable family,
which also gave to steamboats the coil
boiler now so generally used in yachts.

Six dollar and sixty-six cent suits
are sellers. Can't help but be. Suits
that are worth \$12, \$9, \$10 and \$11
Joseph Bros., are selling at \$6.66.

Saloons in Ironton.

Now that the prohibitory ordinance
is repealed at Ironton the town is
lorn with conflicting emotions and
fights. Two shops are in operation,
and the people have all the liquor
they can buy. They are going to have
another ordinance soon.

Six dollar and sixty-six cent suit
sale. Suits that are worth \$12, \$9, \$11
and \$10 Joseph Bros., are selling at
\$6.66.

ELEGANT GOODS.

Fred Laufenberger has re-
ceived some elegant new goods
for fall suits. They are genuine
beauties, the very latest styles.
Fred guarantees satisfaction in
making and fitting.

Another Wedding.

James Underhill and Miss Nana
Overton were married in Solicitor
Clark's office last night. The happy
groom is but 19 years of age while the
blushing bride is 22. Mr. and Mrs.
Underhill will make their home in
this city.

Did you ever see one of the famous
waterproof Interlined Collars or Cuffs?
It's very easy to tell, for they are all
marked this way

They are the only Interlined Collars
and Cuffs, and are made of linen, cov-
ered with waterproof "CELLULOID."
They'll stand right by you day in and
day out, and they are all marked this way

The first cost is the only cost, for
they keep clean a long time, and when
soiled you can clean them in a minute
by simply wiping off with a wet cloth
—that is the kind marked this way

These collars and cuffs will outlast
six linen ones. The wearer escapes
laundry trials and laundry bills—no
chafed neck and no wilting down if
you get a collar marked this way

Ask your dealer first, and take noth-
ing that has not above trade mark, if
you desire perfect satisfaction. All
others are imitations absolutely.

If you can't find collars or cuffs
marked this way, we will send you a
sample postpaid on receipt of price.
Collars, 25 cts. each. Cuffs 50 cts. pair.
Give your size and say whether stand-
up or turned-down collar is wanted.

THE CELLULOID COMPANY,
437-29 Broadway, NEW YORK.

CLINT R. COULTER.

A Fast Bicycle Rider Who Is Bald's Most
Dangerous Rival.

E. C. Bald, the Buffalo racing man, is
generally conceded to be the fastest man
on the cycle track in America this year.
If Clint R. Coulter, the Toledo rider, can
keep up his recent pace he will soon dis-
place the class B king, for his work dur-
ing the last month has been little short
of phenomenal. At any rate the know-
ing ones assert that if any one is to strip Bald
of his laurels Coulter is the man.

At the opening of the season the Toledo
scorer started off very poorly, and those
who had tipped him as a phenomenon were

CLINT R. COULTER.

laughed at. As the summer advanced,
however, Coulter began to justify the pre-
dictions of his admirers, and one after an-
other of the crack riders of the big circuit
were beaten by him. He is a dashing rac-
er, who can come with a head spurt at the
finish or set the pace from the beginning
when necessary.

It has been reported that very alluring
offers have been made to Coulter for the
purpose of inducing him to become an out
and out professional, but the young man
has persistently declined. He would cer-
tainly be able to win most of the cash prize
races if he could maintain his present
form, for none of the "pros" except John
son is doing really creditable work.

This Made the Ex-Champion Tired.

John L. Sullivan told a Boston Herald
man of an incident which happened not
long ago when on the train back to Boston
from Jack Dempsey's benefit. "I had a
special section of the car and got talking to
the sleeping car conductor. He said that
he had lived in Boston about 11 years and
had been working on the road about two
months. I remarked that he must be pret-
ty well acquainted in Boston. He allowed
that he was. 'Then you must know of
me,' I said. He looked me over again and
said, 'No, I can't say I do.' 'I'm Sulli-
van,' said I, but I could see that that
didn't make him any the wiser, so I added
that I was John L., and then he didn't
tumble. Finally I had to tell him that I
was John L. Sullivan, the pugilist. What
do you think of that for ignorance? Isn't it
enough to take the conceit out of a man?"

Steel May Supplant Ivory.

Billiard balls of cast steel have been
made and used successfully at Stockholm.
They are hollow and weigh about as much
as the ordinary ivory balls. A lathe is used
to turn them to perfect smoothness.

Gilmore's Aromatic Wine—
A tonic for ladies. If you are
suffering from weakness, and
feel exhausted and nervous;
are getting thin and all run
down, Gilmore's Aromatic
Wine will bring roses to your
cheeks and restore you to
flesh and plumpness. Mothers,
use it for your daughters. It
is the best regulator and cor-
rector for all ailments peculiar
to womanhood. It promotes
digestion, enriches the blood
and gives lasting strength.

The MAJESTIC

The Eagle Hardware Company

Extends a special invitation to every lady and gentleman
in the city and vicinity to see the

COOKING EXHIBIT

Now being conducted at their store by the representatives
of the Majestic Manufacturing Company on their steel
range, MAJESTIC.

COME AND SEE THE MAJESTIC.

It combines more desirable features than any other
range now being manufactured. Great durability, economy
in fuel, absolute perfection in baking. Special inducement
while the exhibit lasts. Three-minute Majestic Biscuit and
Hot Coffee served from 10 a. m. to 5 p. m., until August 26,
at our store, East Liverpool, O.

The Eagle Hardware Company,
East Liverpool and Wellsville.
